## **1. Personal data**

Name: Economou Nikos  
Address: Office M3.312, Applied Geophysics Lab, School of Mineral Resources Engineering, Polytechniupolis 73100, Kounoupidiana, Chania, Crete, Greece.  
Telephone: 0030-2821037677  
Fax: 0030-2821006901  
Date of birth: 10<sup>th</sup> July 1971  
Place of birth: Thessaloniki, Greece.  
Nationality: Greek  
Army duties fulfilled: 1997-1998 Greek Navy  
Marital status: Married to Trinta, we have 2 sons, Themistoklis and Thomas

## **2. Education**

1998 B. Sc. Mineral Resources Engineering Department (MRED) Technical University of Crete (TUC), Greece. Title: “Geophysical research at the archaeological site of Itanos, Lasithi, Crete, Greece”.  
2002 M.Sc., MRED, TUC, Greece. Title: “Presentation and interpretation of geophysical data using GIS”  
2010 Doctor of Philosophy (Ph.D) in Applied Geophysics, MRED, TUC, Greece. Title: “Development of GPR data processing methods using S-transform”.

## **3. Honors**

- 1999 Scholarship - Technical University of Crete, Greece, for M. Sc.
- I have received **invitation** for
  - A) Presentation-speaking
    - 1) 2002- For the 11<sup>th</sup> meeting of Greek GIS users, ArcInfo-ArcView, Marathon Data Systems, Athens, November, 2002. Publication 7DC1.
    - 2) 2007- Two presentations in the conference “Liktos Euktimeni”, 9-11 November, Kastelli Pediafos, Crete. Publications 7DB1, 7DB2.
    - 3) 2013 to 2015- Four (4) presentations at TU1208 Cost Action meetings at EGU and/or workshops, Publications 7DB3, 7DB4, 7DC2, 7DC3.
  - B) Submission of article at scientific journal:
    - 1) 2010-From Journal of Applied Geophysics, after the presentation at GPR2010. Publications 7C5, 7DA17.
    - 2) 2011-From journal NDT International, after the presentation at EGU2011. Publications 7C6, 7DD1.
    - 3) 2014-From journal First Break, at special issue regarding geophysics in Greece. Publication 7C10.
    - 4) 2018-From Journal of Applied Sciences, after the presentation at IEEE2018. Publication 7DA34.
    - 5) 2018-From journal Geosciences, in order to contribute to the special issue “Advances in Ground Penetrating Radar Research”. Publication 7C16.

- C) Authorship at sections in books
  - 1) 2015-Section relevant to advanced GPR signal processing methods - Springer.
  - 2) 2017-Section in book relevant with the GPR activities in Greece-Arachne, Open access.
- D) Serve as Chief-guest Editor for a special issue in the journal Signal Processing (more details below at scientific community services section)
  - 2013-2017 Leader (with Prof. F. Benedetto from University of Roma) of the project “Development of advanced GPR data processing techniques”, TUD COST Action TU1208.
  - 9/2018 Elected, after open call, for teaching as a visiting professor the course “Environmental Geophysics” at Technological Institute of Crete, Greece, for the spring semester 2019.

## **4. Scientific community services**

### **4A. Editorial work**

- 2017: Chief-guest-Editor, Special Issue in the journal “Signal Processing” by Elsevier, “Special issue - Ground penetrating radar signal processing”, Vol. 132.
- 2017: *Expert reviewer at BCRRA 2017 Tenth International Conference on the Bearing Capacity of Roads, Railways and Airfield.*
- 2017: *Expert reviewer at 9th International Workshop on Advanced Ground Penetrating Radar - IWAGPR2017.*
- 2014: *Expert reviewer at 20th Near Surface Geosciences Conference.*
- 2011-today: I have reviewed articles for the following scientific journals *Geophysics, Signal Processing, Journal of Applied Geophysics, Nondestructive Testing and Evaluation International, Journal of Balkan Geophysical Society, Journal of Geophysics and Engineering, Environmental Earth Sciences, Journal of King Saud University, Construction & Building Materials, Research in Nondestructive Evaluation, Transactions on Geoscience and Remote Sensing, Pure and Applied Geophysics.*

### **4B. Conferences**

2013 – Organizing committee of the 13<sup>th</sup> International Conference of the Greek Geological Society.

2014 – Chair for the GPR and Electromagnetics session at the 20<sup>th</sup> Near Surface Geosciences Conference.

2015 – Organizing committee of the 8<sup>th</sup> Conference of Balkan Geophysical Society.

2017-Scientific committee of the 10<sup>th</sup> International Conference on the Bearing Capacity of Roads, Railways and Airfields (BCRRA 2017).

2021-Scientific committee of the 11<sup>th</sup> International Conference on the Bearing Capacity of Roads, Railways and Airfields (BCRRA 2021).

## **5. Professional and scientific experience**

### **5A. Academic experience**

- 9/1998 to 1/2003: Researcher at the Applied Geophysics Lab. of the Mineral Resources Engineering Department, under six month’s sequential contracts.

- 8/2001: Visiting researcher at the University of Bochum, Germany, for seismological data processing, Professor Hans-Peter Harjes.
- 2/2003 to 7/2014: At Technical University of Crete as “Specific Technical and Laboratory Personnel” (STLP) for the Applied Geophysics Lab.
- 9/2013 to 12/2014: External advisor for Arab Center for Engineering Studies (ACES), Jeddah, Saudi Arabia.
- 8/2014 until today: At Technical University of Crete as “Laboratory Teaching Personnel” (LTP) in Geophysics.

#### **5B. On – going R&D activities (29)**

*PI: Principal Investigator (coordinator)*

*Participation in the projects below mainly includes partial involvement in initial proposal, geophysical measurements and preparation of the corresponding technical reports or deliverables*

1. Geophysical survey at the ancient city of Itanos, Lasithi, Crete, Greece (1995-2001). Funded by the French Archaeological School of Athens. PI: A. Vafidis.
2. Passive and active seismics in Western and Central Crete, Greece (1996 – 2006). Funded by the German Science Foundation. PI: H-P Harjes.
3. Geophysical survey for antiquities at Alexandria, Egypt (6/2000). Resistivity mapping, sounding and tomography at the Old Jewish Cemetery of Alexandria, Egypt. Funded by the Foundation of Research and Technology, Greece (6/2000). PI: A. Sarris.
4. Geoelectrical prospection at N. Marmara, Chalkidiki for ground water research (2001). Funded by GEOTEK. PI: A. Vafidis.
5. Geophysical survey for hydrogeological purposes at Kalimnos island (2001). Funded by the Kalimnos Municipality. PI: G. Tsokas.
6. Geological and geophysical survey of Vasilies village (2002). Funded by Heraklion Municipality PI: D. Monopolis.
7. Artificial lakes in West Crete: Geophysical survey at Kountoura. Funded by the Pelekanos Municipality (2003-2004). PI: A. Vafidis.
8. Geophysical research for the delineation of the ground water table at Herakleion, Crete (2003). Funded by EPAN (SMILES). PI: A. Vafidis.
9. Hybrid Geophysical technology for the Evaluation of Insidious contaminated Areas (HYGEIA) (2001-2005). Funded by the European Union. PI: A. Vafidis.
10. Monitoring of soil and groundwater pollution from petroleum products using modern geophysical methods (2004–2006). Funded by the General Secretariat of Research and Development, Greece. PI: A. Vafidis.
11. Groundwater management and protection from saline water intrusion (2004 – 2005). Funded by the General Secretariat of Research and Development, Greece. PI: A. Vafidis.
12. Hybrid geophysical survey for imaging the saline water front at Stilos, Chania Prefecture, Greece (2005-2006). Funded by the Ministry of Education. PI: A. Vafidis.
13. “Geophysical survey on the E65 national road, Greece”. Applied Geophysics Lab and ISTRIA Ltd. (7/3/2006-6/4/2006). PI: A. Vafidis.
14. Geophysical survey on Ionian national road, Greece”. Applied Geophysics Lab and ISTRIA Ltd. (2/7/2007-31/8/2007). PI: A. Vafidis.
15. “Geophysical survey on the E55 national road Greece”. Applied Geophysics Lab and ISTRIA Ltd. (19/5/2008-18/12/2008). PI: A. Vafidis.

16. Geophysical survey at Ofrynion Kavala, Greece, for the detection of saline-fresh water interface. Funded by GEOTEK. PI: A. Vafidis.
17. “Geophysical survey at coastal areas on Crete and nearby small islands”,. LIFE+ Nature project “Actions for the conservation of coastal dunes with Juniperus spp. in Crete and the South Aegean (Greece)”, known as JUNICOAST, LIFE07NAT/GR/000296. Applied Geophysics Lab. Is a subcontractor of MAICH (1/5/2009-30/6/2010). PI: A. Vafidis.
18. Geophysical survey at the Loutsia Remeri quarry”. Applied Geophysics Lab. and Titan AE (25/1/2010-24/4/2010). PI: A. Vafidis
19. “Geophysical survey at the Kelefina dum, Sparti, Greece”, Applied Geophysics Lab and ISTRIA Ltd. (1/9/2010-30/12/2010). PI: A. Vafidis.
20. “Geophysical survey at Mallia, Crete, Greece”, Applied Geophysics Lab and ISTRIA Ltd. (1/7/2011-30/10/2011). PI: A. Vafidis.
21. “Geotechnical evaluation of carbonates at the Electrical Company of Greece mines”, Geomechanics Lab and Applied Geophysics Lab of TUC (7/2012-3/2013). PI: Z. Agioutantis.
22. “geophysiCaL basEd hydrogeologicAL modeling to pRevent pollution from sea WATER intrusion at coastal areas- CLEARWATER”, BLACK SEA ERA.NET. Technical University of Crete, Chania, Ankara University, Ankara and Greifswald University, Greifswald (1/2/2012-30/1/2015). PI: A. Vafidis.
23. THALIS, Hellenic Republic, Ministry of Education and Religious Affairs, funded by ESPA. Acronym: GEOCHARACTERIZATION. Cooperation of TUC, NTUA, ITSAK, TEI-Crete and IMS-FORTH (1/2/2012 – 30/9/2015). PI: A. Vafidis.
24. “Geophysical investigation using electrical tomography at the Loutsia-Remeri quarry”. Funded by TITAN cements ltd. Applied Geophysics Lab. (7/2012-10/2012). PI: A. Vafidis.
25. “Additional works for the delineation of the Omalos polje dam, including the environmental effects estimation due to its construction”. Municipality of Innachorion and Technical University of Crete. PI: A. Vafidis (7/2012-10/2012).
26. TUD COST Action TU1208 Civil Engineering Applications of Ground Penetrating Radar (4/4/2013-3/4/2017). This action consists of several working groups (WG) and “Projects”. I am the co-leader (with Prof. F. Benedetto from University of Roma) of the project “Development of advanced GPR data processing techniques”. PI: L. Pajewski.
27. ISTRIA. Development of an integrated rock fall monitoring and prediction system. Synergasia 2011-Greek National Organization of Research and Technology. (5/2012-5/2015). PI: G. Exadaktylos.
28. BEWEXMIN-Bucket wheel excavators operating under difficult mining conditions including unmineable inclusions and geological structures with excessive mining resistance. RFCR-CT-2015-00003 (1/09/2015- 31/08/2018). EUROPEAN COMMISION. PI: G. Galetakis.
29. DE.F.I.C.I.T.- DEcision system For Irrigation in Crete based on Innovative Technologies – Code (MIS) 5028242 (2019-2022). RIS3Crete- Joint Regional and European funding. PI: N. Kourgialas. Geophysics sub-task-PI: A. Vafidis.

## **6. Teaching experience**

- Support of:  
5 MSc thesis, >15 Graduate thesis.
- Tutor: Teaching of exercises for the courses related to 1) seismics (1998-2008 and 2014-today), 2) near surface geophysical methods (1998-today) and 3) loggings (1998-2013). “Applied Geophysics I” (shallow and deep seismics – head and reflected seismic waves), “Applied Geophysics II” (near surface geophysics) and “Geological Formations Evaluation using Loggings”; courses under Dr. A. Vafidis. School of Mineral Resources Engineering. Technical University of Crete.
- Tutor: Teaching of exercises for courses related to the Geology of Greece, under Dr. E. Manoutsoglou (from October 2013 until today). “Geology”, School of Mineral Resources Engineering.
- Tutor: Teaching of exercises for courses related to the Geology of Greece, under Dr. E. Manoutsoglou (from October 2013 until today). “Environmental Geology” School of Environmental Engineering. Technical University of Crete.
- Tutor: Teaching of exercises for courses related GIS, under Dr. P. Partsinevelos (from October 2019 until today). “Geographical Information Systems” School of Mineral Resources Engineering. Technical University of Crete.
- Tutor: Teaching of exercises for the graduate courses “Seismic Imaging and well logging” related to Petroleum Engineering (PetEng), MSc program (2014-2015), courses under Dr. A. Vafidis. School of Mineral Resources Engineering. Technical University of Crete.
- I am also teaching MatLab non-regular seminars related to data processing at a graduate level since 2013. These are introductory seminars for geophysical signal processing.
- Participation in all field works related to students exercises every year from 1998 until today. Field works mainly included integrated geophysical surveys for the detection of buried antiquities, mapping of saltwater intrusion at coastal areas and detection of dolines, caves, fractures and weak zones in karstic limestones. These field works are implemented once a year under the frame of the lesson “Field work IV” of the School of Mineral Resources Engineering.

## **7. Academic work**

### **7A. Thesis (3)**

1. “Geophysical research at the archaeological site of Itanos, Lasithi, Crete, Greece”, **Diploma thesis**, Mineral Resources Engineering, Technical University of Crete, Greece, Chania 1998. Supervisor: A. Vafidis.

This thesis includes the results of an integrated geophysical research conducted at the archaeological site of Itanos, Lasithi, Crete, Greece, during 1995-2001, in order to detect buried antiquities. The methods employed were electrical resistivity mapping, electrical tomography, magnetics, GPR, electromagnetic mapping and seismic refraction. Processing for all the methods mentioned above was applied during the development of this thesis and the final results were presented to an open audience.

2. “Presentation and interpretation of geophysical data using GIS”, **MSc thesis** in the Environmental Geotechnology Post-Graduate Program, Department of Mineral Resources Engineering, Technical University of Crete, Greece, Chania 2002. Supervisor: A. Vafidis.

This thesis is related to the development of a GIS project (based on the ArcView GIS) dedicated to the presentation and integrated interpretation of different geophysical methods. A dedicated user interface was created, using the programming language “Avenue”, which permitted the user to view and interpret different geophysical, topographic and geological data. Its use and capability for relevant applications were presented to an open audience.

3. “Development of GPR data processing methods using S-transform”, **PhD thesis** in the Environmental Geotechnology Post-Graduate Program, Department of Mineral Resources Engineering, Technical University of Crete, Greece, Chania 2010. Supervisor: A. Vafidis.

In this PhD thesis, a methodology for efficient time-variant deconvolution for EM waves (GPR data) is proposed, which is mainly implemented in the t-f domain, using S-transform. In order to correct for attenuation effects, a spectral balancing technique, using the S-transform, is proposed. Furthermore, it is demonstrated that spectral balancing must be applied prior deconvolution, rather than being an alternative technique. After wavelet deconvolution a further correction of the residual phases is taking place using the maximization of kurtosis method. The technique’s efficiency is demonstrated first on synthetic data. Then, it is applied on a dataset acquired over a controlled experiment for buried in sand utilities detection and reflections from the water table and a capillary zone above it are revealed. The proposed methodology was also tested on a dataset acquired in the Bissen quarry, in Wisconsin, USA and its ability to delineate reflections buried in noise and wavelet ringing is demonstrated. Finally the proposed methodology is applied on a dataset from an area where buried metallic tanks existed proving its efficiency in increasing the temporal resolution. The processing method’s steps and efficiency were presented to an open audience.

7DB. Invited presentations with articles (4)

- 1) Vafidis, A., and **Economou\* N.**, 2007, Intergated geophysical surveys for antiquities in Crete, Proceedings of conference “Liktos Euktimeni”, 9-11 November, Kastelli Pediados, Crete.
- 2) Vafidis, A., and **Economou\* N.**, 2007, Pilot geophysical research at the archaeological site of Littos, Kastelli Pediados, Crete, Proceedings of conference “Liktos Euktimeni”, 9-11 November, Kastelli Pediados, Crete.
- 3) **Economou, N.**, Vafidis, A., and Benedetto, F., 2013, Presentation entitled “Development of advanced GPR data processing techniques. State of the art and open issues”, First Meeting of the COST ACTION TU1208, Rome, Italy. Proceedings, <http://gpradar.eu/resources/books.html>, ISBN978-88-548-7221-9. [Invited chapter for the Springer Book entitled *CIVIL ENGINEERING APPLICATIONS OF GROUND PENETRATING RADAR*].
- 4) **Economou N.** and F. Benedetto, 2014, Development of advanced GPR data processing techniques, Vienna, 2<sup>nd</sup> meeting of the TU1208 Cost Action, EGU 2014. Proceedings, <http://gpradar.eu/resources/books.html>, ISBN 978-88-548-7224-0.

7DC. Invited presentations without articles (3)

- 1) **Economou\*, N.**, and Vafidis, A., 2002, Geophysical data presentation using GIS, an example from the archaeological site of Itanos, Crete, Greece, 11<sup>th</sup> meeting of Greek GIS users, ArcInfo-ArcView, Marathon Data Systems, Athens, November.
- 2) **Economou\* N.**, and F. Benedetto, 2015, State of the art on Advanced data processing algorithms for GPR, Athens, 4<sup>th</sup> meeting of the TU1208 Cost Action.
- 3) **Economou\* N.**, 2015, Conventional data processing steps to be included in guidelines for GPR assessment of flexible pavements & for GPR detection and location of utilities and voids, Athens, 4<sup>th</sup> meeting of the TU1208 Cost Action.

7DD. Presentations at conferences (abstracts) (3)

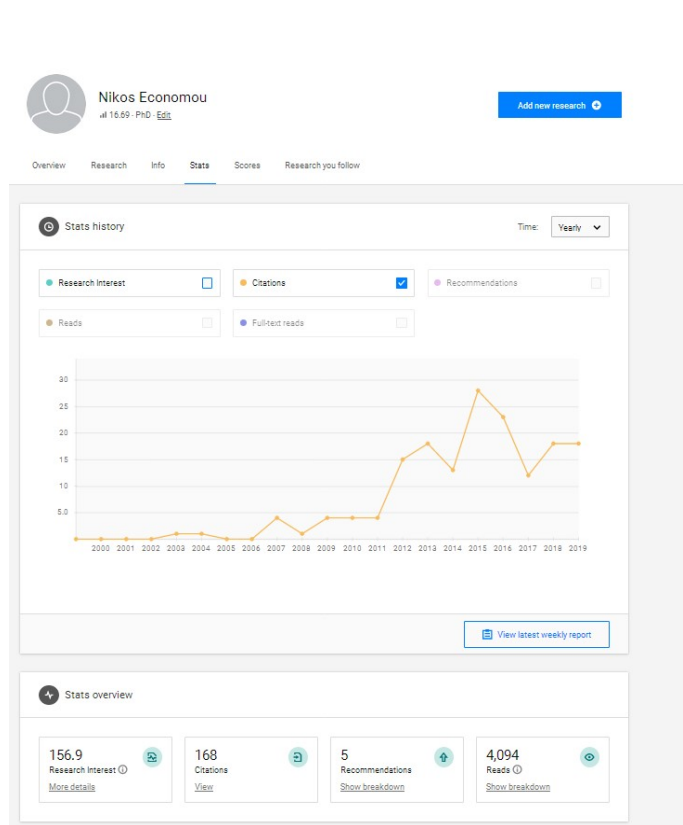

- 1) **Economou\*, N.**, and Vafidis, A., 2002, Geophysical data presentation using GIS, an example from the archaeological site of Itanos, Crete, Greece, 11<sup>th</sup> meeting of Greek GIS users, ArcInfo-ArcView, Marathon Data Systems, Athens, November 2001.
- 2) **Economou\* N.**, Vafidis A., Hamdan H., Kritikakis G., Andronikidis N., and Dimitriadis K., 2011, Time varying deconvolution of GPR data in civil engineering, Conference of European Geosciences Union, General Assembly 2011, Session GI-6 Civil Engineering Applications of Ground Penetrating Radar, Vienna, Austria, 3-8 April [invited paper by “Nondestructive Testing and Evaluation” for the Special Issue on “Civil Engineering Applications of Ground Penetrating Radar”].
- 3) Pajewski, L., Giannopoulos, A., Sesnic, S., Randazzo, A., Lambot, S., Benedetto, F., and **Economou, N.**, 2017, COST Action TU1208 –Working

Group 3 – Electromagnetic modelling, inversion, imaging and data-processing techniques for Ground Penetrating Radar, Session GI3-1 Civil Engineering Applications of Ground Penetrating Radar, Vienna, Austria, Geophysical Research Abstracts, Vol. 19, EGU2017-16855-1, 2017, EGU General Assembly 2017.

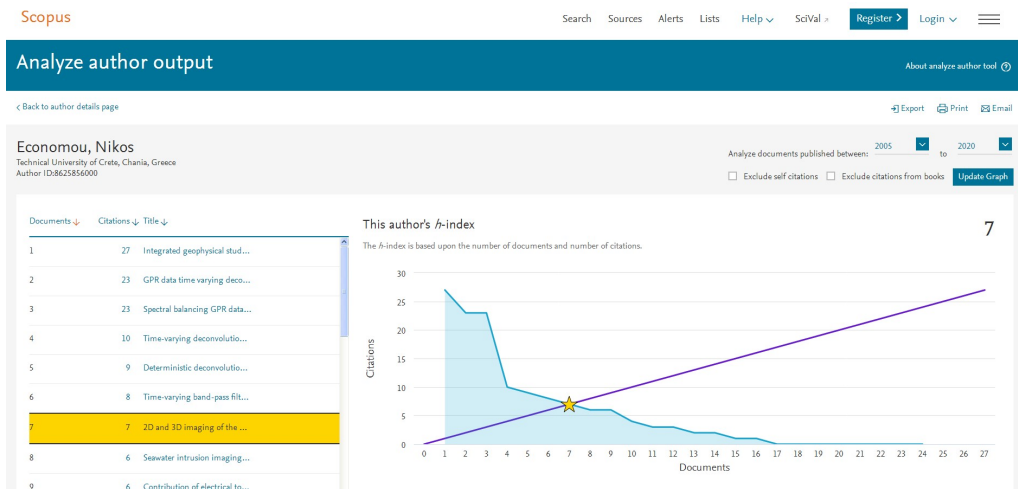

**7E. Participation in the development of students notes**

- 1) Courses of “Applied Geophysics II” (near surface geophysics courses including the electrical, magnetic, gravimetric and electromagnetic methods). Professor A. Vafidis.
- 2) Courses of “Formation Evaluation using Loggings” (courses related to the interpretation of loggings). Professor A. Vafidis.
