

CURRICULUM VITAE

Personal Details

Name: Emmanouil Manoutsoglou
Current Position: Professor, Dr. rer. nat., Geologist
Address: School of Mineral Resources Engineering, Technical University of Crete, Uninersity Campus, 73100 Chania, Greece
Tel.: +28210-37650
E-mail: emanout@mred.tuc.gr
<https://www.researchgate.net/profile/Emmanouil-Manoutsoglou>
<https://emmanuilmanoutsoglu.academia.edu/>

Education and Qualification

3/1986 - 7/1990 Dr. rer. nat. in Geology, PhD Thesis: “Tectonic and metamorphosis of Plattenkalk Series in the Taygetos Mountains, Peloponneses, Greece”, Free University of Berlin (FUB), Germany
10/1982-2/1987 Geology Courses and Courses in Classical Archaeology, FUB
10/1978 - 8/1982 Diplom in Geology, University of Patras, Greece

Work Experience

09/2013 – Today Dean of the School
05/2011-Today Professor, School of Mineral Resources Engineering, Technical University of Crete (TUC), Greece
05/2007-05/2011 Associate Professor, School of Mineral Resources Engineering, Technical University of Crete (TUC), Greece
10/2001--05/2007 Assistant Professor, School of Mineral Resources Engineering, Research Unit Geology (Tectonics, Stratigraphy, Environmental Geology), TUC, Greece

9/1997-9/2001 Assistant Professor (407/80), School of Mineral Resources Engineering and Environmental Engineering Department, TUC, Greece
2/1987-8/1997 Research Assistant in Institute of Geology, FUB, Germany

Teaching Activity

- Undergraduate courses: Geology, Environmental Geology, Geology of Greece, Geothermics, Field Training Courses (TUC), Tectonic, Microtectonic, Historical Geology, Geological Mapping, Field Training Courses (FUB)
- Postgraduate courses: Global Environmental Problems and Strategies in the Mining Industry, Introduction in Geosciences, General and Applied Geology (Co-teaching), Exploration and Positioning of Mineral Resources (Co-teaching)
- Supervision of 1 PhD These (on going), 20 MSc. Theses (4 on going), 55 Diplom Theses (TUC) (11 on going) and 17 Diplom Theses (FUB) (completed)
- Member of examination boards for 19 completed PhD, 13 MSc and 95 Diplom Theses

Funded Research: Co-Investigator in 5 International, 37 European and National Funded Research and Principal Investigator in 14 National Funded Research

Main Research Interests: Tectonics, Stratigraphy, 3D Geological Modeling, Environmental Geology, Exploration of Mineral Resources, Geothermics

Member/Coordinator in Greek and International Conferences and Seminars:

- President/Coordinator of 13th International Conference of the Geological Society of Greece, 2013, Chania, Crete, Greece
- 12th International Conference of the Geological Society of Greece «Planet Earth: Geological Processes and Sustainable Development», 2010, Patra, Greece
- 9th National Cartography Conference «The Cartography of Networks – Cartography using networks», 2006, Chania, Greece
- 7th International Workshop on Bifurcation, Instabilities and Degradation in Geomechanics, 7th IW “BIDG”, 2005, Chania, Greece

Publications: **102** Abstracts/Extended Abstracts in Conferences Proceedings, **123** full text articles in International, National Journals and Conferences Proceedings, **3** Chapter, **1** Book

Results from Scopus and Google Scholar: 586 citations
